SALESFORCE

Get Started with MAC!

From day-to-day management to architecting complex operational structures, we'll enable you to get the most out of this powerful platform.

By-the-hour Staff Augmentation

Work with our team of experienced developers, technical and solution architects, business analysts and admins to tackle your most pressing priorities. No long term commitments or monthly minimums.

Services include:
- Administrative support & maintenance
- Database cleansing & de-duplication
- Solutions consultation

Implementations, Migrations & Mergers

We understand the importance of a successful Salesforce implementation that scales with your business. We take a holistic look at your business and work alongside you to develop a solution which drives business goals.

Services include:
- Implement your new instance
- Rebuild current CRM on Salesforce
- Architect plan to merge 2+ systems
- Rebuild while optimizing processes

Custom Solutions Architecture

By understanding your unique business needs, we create custom solutions that are creative, secure, and scalable, positioning you for success for years to come.

Services include:
- Set up and test key integrations
- Optimization for efficient processing
- Custom development
- Optimize and test automations

Fully Managed Services

Rest assured knowing that your Salesforce systems are being maintained to the highest caliber, freeing you to focus on what matters the most to your business.

Services include:
- Administrative maintenance
- Pro-active optimization planning
- Release note monitoring
